# THE CHALLENGE

# NGAHERE & TE RAU MANGA INCOME

A key Ngahere / TRM role is to find new income streams to offset the reducing forest lease revenue (as the privately owned trees on the estates are harvested and the land 'returned' to our management)

# STRATEGIC OUTLOOK

- ◆ NMWoKNL will focus on managing well core activities with long horizons (eg. forestry and recreational tourism), actively pursuing a few agreed new strategic outcomes (eg. accommodation and supplementary cultural / environmental / recreational tourism near Muriwai), and otherwise vetting and considering proposals that are brought by third parties
- ◆ The key initiative that may introduce another major new income stream to Woodhill is the potential conversion of approximately 1000 - 1500Ha of forestland into a windfarm
